

## Switch Mode Power Supplies

## PSU411- PSU412 - PSU341- PSU342

The switch mode power supply, part of our PSU family, are fully screened to prevent any kind of interference. Available with 12 or 24 output voltage. Isolation class II and F connectors for RF signals.

Switch mode power supply guarantees high efficiency and low consumption. Plastic case suitable for wall mounting. Protection against short circuits, operation is automatically restored after short circuit is removed.

## Main Specifications

- Fully shielded
- Class II Isolation
- Protected against short circuits, operation is automatically restored after short circuit is removed
- Switch mode technology with low power consumption
